Subject: Release of Three P's of Voting Infographic

INTENDED FOR WIDEST DISTRIBUTION

Critical Infrastructure Colleagues and Partners

On September 30, the Cybersecurity and Infrastructure Security Agency (CISA) and the U.S. Election Assistance Commission (EAC) released the Three P's of Voting. The infographic is designed to help voters understand the importance of being prepared ahead of elections to cast their vote, participating to help during local elections, and being patient as increased usage of mail-in and absentee ballots may lead to slower than usual results reporting in some states.

To view the Three P's of Voting infographic, or to learn more about CISA's effort to enhance the integrity and resilience of the Nation's election infrastructure and accuracy of the free and fair elections, please visit CISA.gov/protect2020.
